SPECIFICATIONS

Class 1 Inc. Bed Locator, complete with angled device mounts for convenient bedside access to electrical and low voltage devices. Overall unit to measure 235/8" H x 50 3/4" W x 4"D.

Finish: Decorative, protective molded fascia of KYDEX® TMB in standard Snowflake colour. Fascia to have Flame Spread and Smoke Developed ratings <200.

[Optional:] Color to be selected at a later date by the consultant. (Minimum quantity required).

Frame & Finish: Heavy gauge galvanized steel frame forming a single, rigid wall mount structure.

Device Channels: Full length horizontal raceways to provide mounting of electrical and other devices at 45° to the finished wall surface. Raceways to feature die-cut device knockouts. Electrical power types to be separated by steel barriers or conduit where required.

Electrical Wiring: All 125V electrical devices to be site-wired in designated raceways or approved conduit. Provision for low voltage devices, including Nurse Call, Code Blue, monitors, telephone, data, and cable to include raceways or conduit, barriered compartments, device knockouts, and mounting provision.

Electrical Receptacles: CSA certified or UL Listed, Hospital Grade, 15A or 20A, 125V, 3-wire, U-ground, duplex receptacles, colored ivory for normal power, and red for emergency power.

Light Switches: CSA certified, Specification Grade, 15A or 20A, 125V, SPST or 3-way as required, quiet action toggle type, colored ivory for normal power, and red for emergency power.

KYDEX® TMB antimicrobial protection: helps prevent the growth of bacteria that can cause stains, odours and product deterioration. Protection is built in during the manufacturing process and fights microbes 24/7, for the life of the product.
