

## Job Title: Mechanical Systems Assembler

Our solutions are a key part of the medical industry and medical facility infrastructure. We design, manufacture, install, and service the equipment that delivers life-saving oxygen, medical gases, and suction to patients at the most critical moments of their lives. Working with us means working with the latest technologies and groundbreaking, sustainable innovations.

**Join us on our journey of Building Better Healthcare™.**

Class 1 is Canada's leading professional service provider for **Medical Gas Equipment**. Our team of dedicated professionals lead the Canadian medical gas industry in customer care, technical knowledge, and order fulfillment. Our vision is service excellence – every time!

With this in mind, we are currently looking for a **Mechanical Systems Assembler** to build the top-quality products that our customers expect and keep Class 1 Inc. "**First in Mind - First in Choice**" in our segment.

### YOUR MISSION

The **Mechanical Systems Assembler** will report to the Production Manager and assist in the assembly of Medical Air and Vacuum Systems including compressors, dryers, vacuum systems, dual supply assemblies, inlet stations, and vacuum traps.

### RESPONSIBILITIES

- Maintain a Safety First mindset- ensure health and safety policies and procedures are met before, during, and after system manufacture and assembly
- Keep work area clean
- Report any unsafe work conditions or hazards, missing/defective equipment, and/or missing/defective protection devices
- Review and thoroughly understand all drawings and build specifications to verify project requirements, parts availability, etc.
- Cut, punch, tap, notch and stamp aluminum or steel sub assemblies for Medical (Gas & Air) Supply Units
- Assemble, fit, and install prefabricated parts to form sub assemblies or finished Medical Supply Units using hand and power tools
- Use electrical drawings to assist in the assembly of electronics/electrical and electro-mechanical systems as needed and work with Electrical Panel Assemblers and Engineering to position, align, and adjust mechanical parts for proper fit and function
- Label parts and systems according to all procedural and/or legislated requirements
- Assist colleagues as needed in the assembly of architectural, secondary, or electrical systems
- Check inventory for consumables to maintain stock levels
- Participate in inventory management process for cycle counts and annual inventory processes
- Assist in building skids and crates to package completed Medical System Units for safe shipping
- Other duties as assigned

### TO SUCCEED YOU WILL NEED:

- Completion of OSSD or equivalent required
- Post secondary training in Mechanical or Electro-mechanical field considered an asset

- Minimum 3-5 years practical knowledge & hands-on experience in a manufacturing environment building and testing mechanical and/or electrical equipment
- Ability to read detailed schematics
- Experienced in using construction equipment (power tools) required
- Forklift and/or TSSA Brazing Certification considered an asset
- A 'customer first' attitude
- Self motivated, process driven, and results orientated professional
- Excellent communication skills with ability to effectively collaborate in a team oriented atmosphere with assemblers, technicians, warehouse, and engineering colleagues
- Knowledge and experience of health and safety practices
- Ability to lift 50 pounds required

#### **IN RETURN WE OFFER YOU:**

- On the Job training in the delivery of high-quality assembly of all Class 1 Inc. products
- Competitive wage
- Extended health care plan, dental care, life and disability insurance
- Company matching RRSP plan
- Physical wellness subsidy
- Paid time off (3 weeks' vacation to start, paid sick days, paid flex days)
- Emergency travel insurance
- Employee assistance program
- Continuous learning opportunities

#### **Diverse by nature and inclusive by choice**

Bright ideas come from all of us. The more unique perspectives we embrace, the more innovative we are. Together we build a culture where difference is valued and we share a deep sense of purpose and belonging.

We are committed to equity, inclusivity, and integration in our recruitment and business practices. Accommodation is available to all applicants upon request throughout our recruitment process. Please contact Human Resources at [hr@class1inc.com](mailto:hr@class1inc.com) if you require accommodation. We will work with all applicants to accommodate their accessibility needs.
